

## Media Applications Saving Directions

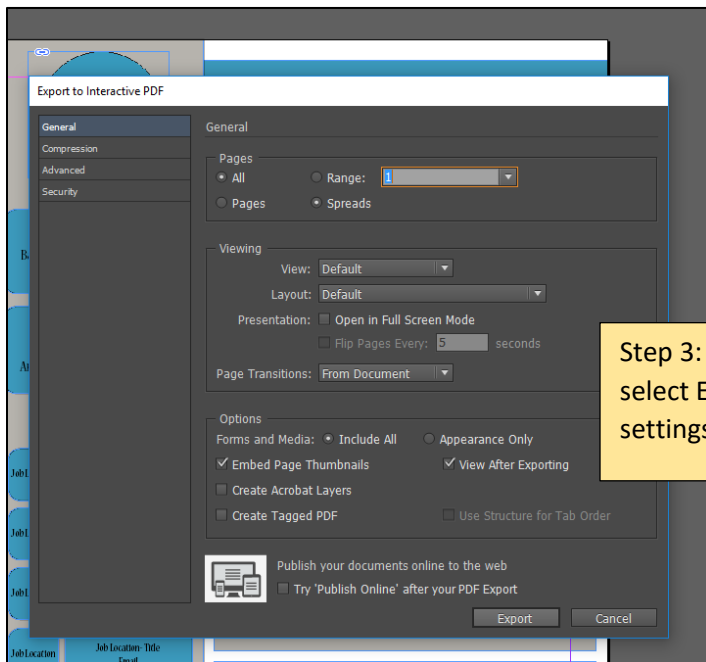

You will be saving **BOTH** your resume and your business card as **PDF Interactive** file. This will ensure that you will be able to edit your PDF at a later date. These directions will show print screens of the resume being saved as a PFD Interactive. However you will be saving both your resume and your business card this way.

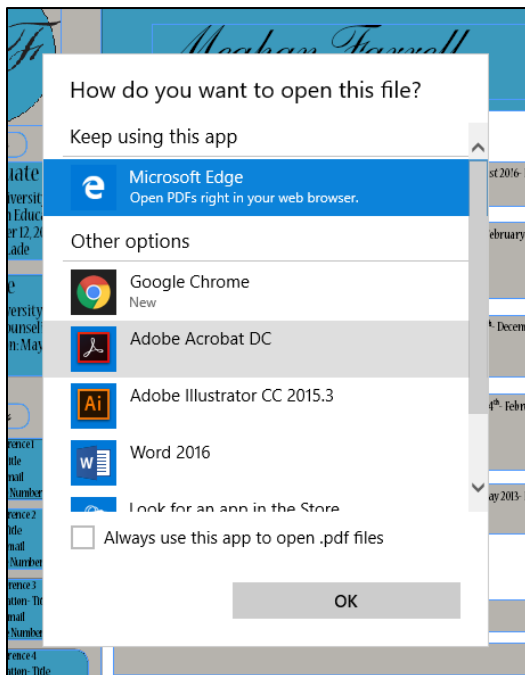

Step 1: With your document open, select File → Export

Step 2: With this dialogue box open, make sure to select Adobe PDF Interactive.

Step 3: When you see this dialogue box open, select Export. You do not need to change any settings.

Step 4: If this dialogue box opens, select Adobe Acrobat DC.
